

Custom Surface Mount Power Inductors

To meet specific application requirements, Coilcraft offers a wide variety of customized surface mount inductors and transformers. Core configurations include:

- EE • EP • EFD • EI
- RM • Pot • Toroid

Most shapes are available with standard mounting hardware, or Coilcraft can custom tailor a design to meet any particular need.

Leading Edge DO, DS and DT Designs

For the best combination of cost and performance, consider the Coilcraft DO, DS and DT Series. These stock inductors feature the smallest size, lowest cost and highest L x I available in any standard series of surface mount power inductors and are available shielded or unshielded.

Low Cost EE Core Magnetics

Always a popular core type for power supply magnetics, Coilcraft offers surface mount EE core inductors in many standard sizes and materials. A high degree of production automation keeps costs low. They're available in single or multiple-section configurations as well as low profile designs.

Call for Design Assistance

Coilcraft engineers are ready to help you select the best design for your application. And if needed, prototype samples can be designed and shipped, usually within 10 working days.
